

The Role of Executive Function in Learning

TUESDAY, FEBRUARY 12, 2019

6 PM - 8 PM

MARPLE NEWTOWN HIGH SCHOOL, ROOM A117

Presenter: Trish Wold, DCIU Professional Development Specialist

Executive function and self-regulation skills are the mental processes that enable us to plan, focus attention, remember instructions, and juggle multiple tasks successfully. Executive function skills in the brain are crucial to supporting students' learning in school and functioning in the workplace. This training focuses on defining executive function and the core areas affected by executive function. The training will also focus on how deficits in executive function can effect a student's ability to learn.

To register for this session, contact Trish Wolf at twolf@dciu.org or call (610) 938 9000 ext. 2136
